PART I

CHAPTER I — INTRODUCTION

GEOGRAPHICAL

The Manipur State lies between latitude 23°50' and 25°30' north and longitude 93°10' and 94°30' east, and is bounded on the north by the Naga Hills, on the east by Burma, on the south by the Chin Hills (Burma) and the Lushai Hills and on the west by Cachar. The area of the State is 8,638 square miles, some 700 of which form the central valley of Manipur, which is inhabited by Meiteis, Manipuri Musalmans, Lois, Non-Manipuris and some Nagas, such as Kabuis, Marings, etc. The remaining area of over 7,938 square miles consists of mountainous and hilly country inhabited by Nagas, Kukis and other hill tribes.

The valley is about 2,600 feet above sea-level with drainage from north to south. In the hill area the highest mountains rise to nearly 10,000 feet above sea-level.

The principal rivers in the State are the Imphal and the Barāk. Of these the former with its tributaries drains the valley, the hills immediately surrounding it and the southern hills, and the latter the northern and western hills. The Imphal river flows through the Chin Hills and the Kale valley into the Chindwin River; the Barak River flows through Cachar and the Surma valley into the lower Brahmaputra.

The valley of Manipur is dotted with lakes and marshes, many of which dry up in the hot weather. Some of the larger lakes, however retain water throughout the year, the largest being the Loktak—some 8 miles long and 5 miles broad after the annual rains.

POPULATION.

According to the 1941 census the population of the State was 5,12,127 of whom 3,37,555 were inhabitants of the Valley, 1,68,433 of the Hills and 6,139 of Jiribam. The population of Imphal and its suburbs was 1,10,947.

POLITICAL.

The political movements and labour strikes in British India had their repercussions in the State. His Highness agreed to the setting up of a constitution making committee composed of officials and non-officials to draft a constitution for the State; representatives for the Valley were returned by indirect elections held in the five Tahsils and those for the Hill were sent up by the President, Manipur State Darbar in whose special responsibility lay the then administration of the Hill. His Highness addressed the members at the Palace Darbar Hall and made known His Highness's intentions. The first meeting of the Committee was held on the 24th March, '47. The draft constitution was passed by the Committee on the 8th May, 47. It was a great credit to this Committee that they could in such a short time bring out an agreed constitution. Manipur and her people will owe to them a great debt.

For the first time the State had the experience of strikes by public servants. For few days and not simultaneously most compounders and primary school teachers went on strike, the former demanding better pay scale and the latter, reversal of the selection of the Drill Inspector. After some negotiation the strikers gave up pressing hard for their demands and returned to work. The civil police staff, dissatisfied about pay scale, struck off work, but a compromise was effected at the first hour of the strike.

GENERAL.

A paddy procurement scheme was started with a view to put an end to the monopolising of rice trade by some capitalists of a particular community. This monopoly had resulted in such serious calamities as the 'Nupi Lan' (Women's Rising) of 1939-40. The scheme was aimed at (1) to provide better income for cultivators and a price of paddy which even the poor could pay, and (2) to hold a reserve as an insurance against famine and from which the cultivators may borrow when flood and other natural causes destroy the crops. The scheme further aimed to form a company when the people could subscribe nearly half of the shares. Thus the people would be brought closer and closer with the scheme.

The balance sheet for the first year is given in the appendix.

The endeavour to establish a college, started more than ten years back, became successful. Aided by the State, the Dhanamanjuri College was started with some seventy students only.

During the year under report the pay scales of all the State servants were reviewed and revised completely in order to enable the State to abolish the special and dearness allowances paid during the war time. Clerks were divided into three grades and a clerical Cadre of the whole State was introduced. The price of commodities did not fall markedly as was expected and dearness allowance was to be continued till after the year in the case of State servants drawing less than Rs. 30/- a month.

The payment of compensation was begun and more than Rs. 28 lacs was paid. The people clamoured violently for early payment of compensation.

There were two floods at the interval of three months only. This was historic and never did two floods occur in one year. There was flood in Jiribam also. The State afforded relief to the flood affected areas.

THE RULING FAMILY

During the period under report His Highness the Maharaja of Manipur was on tour for 126 days visiting Moreh, Choithar Hill Private School, Dimapur, some villages of East and West Hill of Manipur, Delhi, Jiribam, Mondum, Koubru Lekha, Pumlun, Palel, Wangjing, Hiyangthang, Shillong and Tripura.

Hon'ble Sjt. Gopinath Bordoloi, Premier of Assam accompanied by Rev. J. J. Nichols Roy visited Manipur State. Sjt. Bordoloi accompanied by His Highness visited some of the War affected areas and was entertained with Rash Lila at the Palace Darbar Hall.

In course of His Highness' tour in the Hills His Highness secured the co-operation of the Hill Chieftains and Hillmen with the Plain's people.

During the period under report His Highness attended the Meeting of the Chamber of Princes at Delhi.

With a view to framing a constitution for the popular Governance of the State of Manipur His Highness made an announcement to the people and addressed the Constitution Making Committee Members on 10-3-47.

His Highness made certain limitation to the export of rice from Manipur for the last three consecutive years afraid lest there might be shortage owing to flood in the respective years.

In recognition of His Highness' firm stand and the allied helps and service rendered by His Highness and his subjects the amount of tribute of Rs. 50,000/- was remitted in perpetuity and His Highness was awarded the India Service Medal and the War Medal.

In honour of the sad demise of His Highness Maharaja Manikya Sir Bir Bikram Kishore Dev Varma Bahadur, K. C. S. I., Maharaja of Tripura, all State Offices and Schools were closed for two days the 19th and 20th May, 1947 and all amusements were suspended throughout the State on 19th and 20th May, 1947. His Highness participated in the Sradha Ceremony of the late Maharaja with three Kirton Palas in spite of his ill health.

Particulars about the income made to the State during the year under report from fishery auction Sale are given in Appendix XXXV, Miscellaneous collection.

The number of fisheries mentioned above includes free and cancelled ones. The big fisheries are Waithou Soirel/Waithou Phumnon, Ningthibaklong, Leitang, Yangoi, Kharungpat and Ikop.

During the year under report, in the month of October, 1946 all the big fisheries, middle class ones and some small ones were affected by the untimely flood which occurred during the fishing Season and carried out all the fish from the fisheries. This greatly affected the fishery revenue and the lessees of the big and middle class fisheries could not make money from their fisheries and pay their Kists. They left big arrears unpaid. In some cases it was also reported that some lessees paid their lease value in full in order to save their prestige though they sustained a great loss.

Most of the State fisheries have also been damaged by Water-hyacinth which has lessened the production of fish in the State. The fishery Department is always trying to destroy such vegetation growing in the State Fisheries ; and even then the vegetation is increasing year by year.

The P. M. S. D.'s power in the original fishery cases was transferred to L. R. O. (Fisheries) on 18-6-47, vide D. R. No. 12 of 18-6-47 ; and an appeal from the order of L. R. O. (Fisheries) lie to the Revenue Tribunal whose decision is final.

The Revenue Minister, the then P. M. S. D. is responsible to the State Council in all administrative matters connected with the fishery.

The Fishery Court has its own Misc., Civil and Execution cases.

CHAPTER X.

AGRICULTURE.

Sreejut Waikhom Chaoba Singh, B. A., Darbar Member continued to hold charge of the Department throughout the year under report and Mr. D. M. Sen Gupta, B. Ag. (Bombay), Asst. Deputy Director of Agriculture of Assam who was lent by the Government for the benefit of the State continued to act as the Agricultural Officer of Dept. upto 24-9-47. After he had left the Dept., Sjt. P. Chaoba Singh, L. Ag. (Mysore) was appointed as the Agricultural Officer of the Dept. from 8-5-47 before completion of his training in the India Dairy Diploma in order to get some help from him in running the Dept. He stayed in the Dept. upto 22-5-47 during which he proposed to establish an Experimental Farm to carry on "Mixed type of farming" at Kanglatongbi, 15 miles from Imphal. This Farm is now in its rudimentary stage. The second Farm at Achambikei Mongjam is not satisfactory as there is lack of natural facility for agricultural development and less scope for further extension. From 23-5-47 the new Agricultural Officer was deputed on study leave by the Darbar to complete his training in the Indian Dairy Research Institute, Bangalore.

During the year under report the Agricultural Member was on tour for 10 days, the former Agrl. Officer for 35 days and new Agrl. Officer for 3 days. One bonafide Agricultural student Sjt. Loitongbam Udhob Singh was also deputed by the State to the Allahabad Agrl. Institute for training in the Degree course.

In connection with the cattle improvement scheme, four breeding bulls (local breed) were purchased by the State. The bulls were released at Khurai Khomidok, Kairung, Waiton, Khundrakpom etc. and service-records were being maintained. The scheme is yet under study. As cattle problem comes first in the way of agricultural improvement, the Department is in its initial stage highly interested in the improvement of draught cattle. The question of dairying is yet to consider. Schemes for tackling with the problems like feeds and fodders; pasture area improvement; castration of scrub-bulls; establishing service centres etc. are under preparation.

The Department being in its infancy with insufficient technical staff, first requires to establish itself with all necessary sections in complete however it may be on a small scale. It was during the period under report directed in the studies and surveys of the local agricultural conditions so as to formulate the real need of the agricultural population, in near future.

For the year under report a sum of Rs. 81,800/- was granted by the State for the Department out of which a sum of Rs. 28,361/-/1 was expended.
